- PPL License: to add your favourite music
- Stylish and creative production
- 1st version for you to check for any changes

Days Gone By Montage

A gentle sequence of photographs of the Bride and Groom growing up. Finishing with a few photo of them together.

Bride and Grooms Preparations

We arrive a few hours before the Service filming the morning's preparations of one or both households.

Pre-Ceremony Activities

We arrive in good time before the service begins allowing us to capture the venue, arrival of the Groom, Guests, Bridesmaids and, of course, the Bride!

The Wedding Ceremony

We film the ceremony and vows. We then turn our attention to the Signing of the register and your grand exit as husband and wife!

Photo Call / Reception / Speeches

We capture the highlights of the Photo Call and the Confetti Shower. At your reception we record the Breakfast room, & receiving line, guest messages to you and your entrance to the top table. After the formal Cutting of the Cake we film the main speeches from the top table.

1st Dance & Highlights

Finally to conclude, we can film the first Dance of the evening. The end highlights includes lots of special FX, black and white scenes & amp; slow motions. We can include personalised credits.

Big Brother style 'Diary Room'

After filming your speeches we set up in another room at your reception. Guest are invited to come on camera and leave a personal message for the Bride and Groom. Generally, the more alcohol your guest consume during the reception, the funnier the Diary Room messages get!

Music Video.

We film your family, friends and you, miming to a song. Perfect Day is a great choice, but it can be any song you wish. At the editing stages we add the song and lip-sync the whole thing together creating a fantastic chapter to your DVD!
